

# Certificate of Analysis

Product Name: Tesamorelin  
Catalog Number: M31311  
CAS Number: 218949-48-5

## Physical and Chemical Properties

Formula: C221H366N72O67S  
Molecular Weight: 5135.78  
Storage: Powder -20°C 3 years ; 4°C 2 years  
In solvent -80°C 6 months ; -20°C 1 month

Chemical Structure:

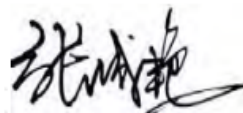

## Analytical Data

QC Standard: 98.98%  
H-NMR: Consistent with structure

## Product Information

Description: Tesamorelin is a synthetic growth hormone-releasing hormone analog and a GHRH agonist that stimulates the synthesis and release of endogenous growth hormone.
